SPECIAL NOTICES.

change has caused some weakening in the established, and at present it does not ists have repeatedly analyzed the air at selling rate, which is somewhat irregular, look as if the trade proposed to follow it unhealthy seasons, in the hope of detecting seiling rate, which is somewhat irregular, ranging from 1/4 to 1/4 premium. The department of holders many orders are withdrawn, prompt enstomers are accommodated at and those on the market have been reprompt ensioners are accommodated at the regular rate.

There is some improvement in City Bonds, or at least there is a botter demand for them, but no sales that we could learn of. Dealers would, we think, pay sic. Memphis and Charleston stock is also better; she was refused for a lot to day.

County Warrants are weaker; 77e only was bid by dealers to-day, with light trensactions. City Scrip and Tennessee money are unchanged, with a small demand for either.

Dealers buy gold at 11461144 in small amounts and sell at 115641156; e.

An important with has just been decided in the Supreme Court of Missouri by Judge Carrier, the other Judges concurring. The Court decides that a collecting agent has no authority to indorse for his employers:

In the Supreme Court of Missouri, March term, 1870.—Henry B. Graham, et al. res, vs., the United States Savings Institution, appellant. Appeal from St. Corrict Court.

This suit is brought to recover the

Louis Circuit Court.

OPINION OF THE COURT.

This suit is brought to recover the amount of two checks, which wore drawn on the defendants by third parties in favor of the plaintiffs, and made payalile to their order. The drawers delivered the checks to the plaintiffs and made payalile to their order. The drawers delivered the checks to the plaintiffs of collecting agent, one Dixon, in settlement of certain bills which the latter had in charge for collecting, being hills due from the drawers of the checks to the plaintiffs. Dixon indersed the plaintiffs from name upon the checks and presented them at the bank and drew the money upon them, which he seems to have appropriated to below own use without rendering any account the facts.

If Dixon had authority, general or special to indoors the checks in the manner stated, or the defendants were authorized to pay them without the personal indorsement of the plaintiffs, it is not contended that defendants would be liable in this action.

The verdict of the jury, however, negative the defendants would be liable in this action.

The verdict of the jury, however, negative the color of the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the cere is the country demands the connection of the countr

HAIR RESTORATIVES.

A NEW DISCOVERY! PHALON'S "VITALIA:

Salvation for the Hair. CLEAR AS WATER! WITHOUT SEDIMENT!! TO THE LIGHT!!! For Restoring to Grad Hair its Original Color.

PHALON'S "VITALL differs ut terly from all the fiair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy mayer, requires no shaking, im pares no stain to the skin. Hold it to the light and it is clear and cloudess. It leaves no mark on the scan; yet it reproduces in gray half the natural color that time or sickness may have

PRODUCE-Peachblow Potatoes, \$1 7566 bleached out of it. Phalon's Vitalia 21 is for one sole purpose, that of reproducing, with absolute certainty, the natural solor of the hair. It is not intended as a daily dressing, norfor removing , scurf or andruff; nor for curing balaness; nor for stimulating the growth of the hair. In These objects may be acce, in plished after the color has been fixed with the Vitalia, by Pha-

WALTHAM WATCHES.

WALTHAM

Watches! Be The extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exact-ing of watch-wearers, has thoroughly demon-strated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of

450,000 of the 56 per cent, more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skilling arrisans in our works and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of

Among the many improvements we would particularize;

The invention and use of a centre-pinion of peculiar construction, to prevent da large to the train by the breakage of main spfings, is original with the American Wateh Company, who, inving had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faulties.

Hirdened and tempered hair springs, now universally admitted by watehmakers to be the best, are used in all grades of Watham Watham. the best, are used in all grades of Waitham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above-mentioned improvements, which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

Every watch guaranteed by the Company that every watch should bear either of the following trade marks: Waltham, Mass.

A descriptive circular giving muci information sent to any address on applies.

No watches retailed by the Company, Address,
